

THE HIGH SPEED SPORTS SURFACE FOR ELITE ATHLETES

The Polytan PUR is the ideal surface for best times, records and international elite sport. It offers optimum acceleration thanks to its high abrasion resistance. The top layer EPDM granules are dispersed in a liquid layer of polyurethane, providing a seamless sports surface. With its structured surface, the Polytan PUR is ideally suited to running shoes with spikes. The solid design also ensures a particularly long lifespan.

AREAS OF USE

- Competitive running tracks
- Athletics stadiums

PROPERTIES

- Poured in situ surface, multilayer
- Waterproof
- Granules with visible tips interspersed, ideally suited to spikes
- Can be certified according to IAAF requirements

System structure:

COMPETITION / STADIUM MULTIPURPOSE / SCHOOL SPORTS MULTIFUNCTION SOFT IMPACT SURFACE
